In the originally published version of this article, the author list contained two errors. Specifically, David J. Kwiatkowski was misspelled as David J. Kwaitkowski, and William Y. Kim was inadvertently written as William T. Kim. Both names have been corrected online.

The authors regret this error.

(Cell Reports 21, 508–516; October 10, 2017)

In the originally published version of this article, there was a typographical error in the third Highlight, where “without” was inadvertently written instead of “with.” The Highlight has now been corrected online and reads as “Tumor cells become resistant to drug therapy with breathing motions.”

The authors regret this error.
